My Career Planning

Full-Stack Developer

Career Goal

My main career goal is to become a **professional Full-Stack Developer** and get my first **internship or junior job** in the software development field.

Skills I Need to Learn

-Front-End Development

- [ ] **HTML**
- [ ] **CSS**
- [ ] **JavaScript**
- [ ] **Responsive Web Design**
- [ ] **React.js**

- Back-End Development

- [ ] **Node.js**
- [ ] **Express.js**
- [ ] **REST APIs**
- [ ] **MongoDB**
- [ ] **Authentication & Authorization**

- Additional Skills

- [ ] **Git & GitHub**
- [ ] **Problem Solving**

- [ ] **Debugging**
- [ ] **Basic Data Structures & Algorithms**

- Practical Experience

To gain real-world experience, I will:

- [ ] Build **3+ practical projects**
- [ ] Build at least **one complete Full-Stack project**
- [ ] Use **Git & GitHub** for my projects
- [ ] Create a professional **Portfolio**
- [ ] Practice **problem solving and debugging**

- Career Roadmap

01 → Learn Front-End

HTML → CSS → JavaScript → React.js

02 → Learn Back-End

Node.js → Express.js → REST APIs → MongoDB

03 → Build Projects

Create practical and complete **Full-Stack projects**

04 → Build My Professional Profile

CV → GitHub → Portfolio → LinkedIn

05 → Prepare for Jobs

Technical Interviews → Problem Solving → Communication Skills

06 → Start My Career

- Apply for **Internships** → **Junior Full-Stack Developer Jobs**

Timeline

Period	Goal
Months 1–4	Front-End Fundamentals
Months 5–6	React.js + Git/GitHub
Months 7–8	Node.js + Express.js + MongoDB
Months 9–10	Full-Stack Projects + Portfolio
After Month 10	Apply for Internships & Junior Jobs

Final Career Goal

By following this career plan, I aim to become a **Job-Ready Full-Stack Developer** with strong **Front-End and Back-End skills**, practical projects, and a professional **portfolio** that will help me start my career in the software development field
