Smart Goals– Front-End Development

S – Specific

My goal is to learn **Front-End Development** and focus on **HTML, CSS, and JavaScript** so I can build professional websites.

M – Measurable

- [ ] Complete HTML course
- [ ] Complete CSS course
- [ ] Complete JavaScript course
- [ ] Build 3 practical projects

A – Achievable

- ⏰ Study **2 hours every day**
- 💻 Practice after every lesson
- 🔎 Search and ask for help when I face a problem

R – Relevant

My goal is to become a **Front-End Developer** and be ready to apply for **internships or jobs**.

T – Time-bound

Track	Duration	Status
HTML	1 Month	⬜ Not Started
CSS	1 Month	⬜ Not Started
JavaScript	2 Months	⬜ Not Started
Projects	During the track	⬜ Not Started

Final Goal

By the end of **4 months**, I want to be able to build professional websites using **HTML, CSS, and JavaScript**, with **3 projects** ready for my portfolio
